

December 7, 2016

To whom it may concern,

We are very happy to write a letter in support of Greg Brown and the Brown Development team. We are California residents who have been vacationing in Maui for a number of years. We fell in love with the Maui lifestyle and decided to build our dream vacation home. After acquiring some land in Launiupoko, we contacted Greg Brown to build our home in 2015. The project cost approximately 3.7 million dollars and took about 1.5 years to complete. It was recently completed and we could not be happier with the results.

The quality of the materials used, the craftsmanship, and the care involved in the construction of our home were all excellent. When problems arose during the construction, Greg or his team were always quick to explain the problems and quick to fix them.

We found Greg Brown to be a man of integrity who builds a great product. His team members are excellent as well. We got to know Steve Bayes, Cindy Lester, and Tiare Parsons very well during the course of the project. All of them performed their jobs very well and answered any questions we had. More importantly, they are great people.

We had a great building experience with Brown Development. We would use them again and would definitely recommend them for any building project in Hawaii. We love our home!

Please contact us should you need any further input or have any questions.

Sincerely,

Nahal Ashouri
